

PROPHET BY THE NUMBERS

A GLIMPSE INSIDE THE WALLS *of* OUR COMPANY

We believe business happens at the human level. Transformation and growth are driven by the strategic and creative capacity of our teammates and our strong relationship with clients. As a company, we are the sum of our dynamic and fabulous parts - all 209 of them. A collective of individuals each shaped by our own experiences - both professional and personal. And while we may share some of the same traits, like left or right handedness, no two of us are alike. Our diversity and passion for brand and marketing is what makes us unique as a company.
